Multimedia Test

Photo: Fernando García-García, May 2013
Instructions

This test has 40 questions.

Read the question on each PowerPoint slide carefully. We will also read the questions to you.

Depending on the complexity of the question, we will give you 30 to 75 seconds for a question.

Each question is multiple-choice. Choose A, B, C or D.

Only one answer is correct.

Mark your choice on the Answer Sheet with a circle around the letter that you want to select. If you make a mistake, delete the selected letter and make a new choice.

We will read all questions to you again at the end of the test.
What city was this picture taken in? It is the closest city to the equator that has hosted the Winter Olympic Games.

A. Beijing  B. Nagano  C. Seoul  D. Tokyo
What does this map represent?

A. cereals exports
B. carbon dioxide emissions
C. total population
D. international tourists arrivals
What do the red areas in the map represent?

A. zones of high levels of chlorophyll concentration  
B. the estimated coverage of the Great Pacific garbage patch  
C. zones of low mean annual sea surface temperature  
D. feeding grounds of several whale species
The diagram shows a Bradshaw Model for a river. Considering the flow from source to mouth, which of the following statements is correct?

A. discharge increases and efficiency decreases
B. both discharge and turbulence increase
C. both load and velocity decrease
D. gradient decreases and velocity increases
In this picture, what are the season and time in Moscow?

A. winter, early evening  
B. summer, early morning
C. summer, late morning  
D. winter, early morning
In the picture you can see:

A. an aqueduct
B. an embankment
C. a ravine
D. a trench

Photo: Nina Brander 2008
These photos were taken in the same country. Which country is it on the map?
Q 8 Which of these natural hazards can be mitigated by the structure in the picture?

A. rock falls
B. riverbank erosion
C. landslides
D. all of the above
In what month was this photo of a street in Manila most likely taken?

A. February  B. April  C. July  D. December
The Richat Structure is currently thought to be a symmetrical uplift. It is:

A. an eroded anticline
B. a dune
C. a river delta
D. a meteorite crater
The red arrows point to ridges of debris. What is the name of this landform?

A. cirque  B. drumlin  C. esker  D. medial moraine

Q 13 Which phenomenon is shown in the movie?
A. debris landslide  B. mudslide
C. pyroclastic flow  D. snow avalanche
Q 14 These photos show religious buildings. Which religion do they belong to?

A. Buddhism  B. Christianity  C. Hinduism  D. Islam
Q 15

Which contour map matches the three-dimensional draft shown below?
These time-lapsed images show the evolution of:

A. the tropical rain forest in Amazonia
B. a landscape for the exploitation of tar sands in Canada
C. a landscape for industrial purposes in southern India
D. a landscape for agriculture in the south of Spain
Q 17 From left to right, what is the correct sequence matching these climate graphs to the following cities:
1: Athens (Greece) 2: Chittagong (Bangladesh) 3: Zinder (Niger)?

A. 1, 2, 3  
B. 1, 3, 2  
C. 2, 3, 1  
D. 3, 2, 1
Based on the table below, which of these Central American countries (marked on the map as A, B, C and D) is more likely to have the lowest emigration rate due to push factors?

<table>
<thead>
<tr>

Q 19  This landform can be commonly found in all the following countries, except in:

A. Australia    B. China    C. Japan    D. U.S.A.
Imagine you are a local newspaper editor. Your reporter hands you four headlines for this picture. Which one most appropriately describes the feature in the photo?

A. Ice Age is Coming!  
B. Landslide Threat!  
C. Retreat in 20 Years!  
D. Water Pollution Crisis!

Q 20
The picture shows a forest of bamboo, now popular as a flooring material in North America and Europe for its low environmental impact. Which feature does not contribute to that reputation?

A. five-year maturation period
B. lack of pests and no need for fertiliser
C. majority of production in Asia
D. production leads to little soil erosion
What economic sector does this network diagram represent?

A. banking and financial services  
B. bio-industry  
C. fashion industry  
D. gold trading
The rock type shown in the picture is:

A. conglomerate
B. granite
C. sandstone
D. shale
Q 24 Which population pyramid is that of Vietnam?
Q 25 Look at the pictures below. What action should be taken when an earthquake occurs while you are inside a building?

A

B

C

D
Q 26 Which continent do these animals inhabit?
A. Africa   B. South America   C. Asia   D. Europe
Which of the following biomass types corresponds to a tropical rainforest?
Q 28 Which kind of weathering process is shown in the photograph?

A. biological
B. frost wedging
C. haloclasty
D. thermal stress
What biome does this climate graph correspond to?

A. coniferous forest
B. rainforest
C. savanna
D. temperate deciduous forest
Q 30 The pictures below show a change in an urban environment. The process of this urban regeneration of an area is called:

A. counter-urbanisation  
B. gentrification  
C. reurbanisation  
D. urban consolidation
This animation of time-lapsed images shows the evolution of:

A. Cairo
B. Doha
C. Dubai
D. Riyadh
Q 32 Which element is accurately represented over the whole of the map with this map projection?

A. direction between a feature and surrounding features
B. distance between a feature and surrounding features
C. shape of a feature
D. size of a feature
This time-series graph shows the projection of:

A. business development plans for 15 members of the European Union \(10^{14} \text{ €}\)
B. iron ore mining growth (thousand tons per year)
C. petrol price in world market (USD per litre)
D. world population growth (thousand million people)
This movie is a statement of the need for:

A. wastewater treatment enforcement
B. water consumption measurements in urban areas
C. water control everywhere around the world
D. clean drinking water for everyone
When the Earth is located at “point 3” in its orbit around the Sun, at which of these latitudes is the Sun’s noon elevation lowest?

A. 23.5 °S  B. 30 °N  C. 30 °S  D. 40 °N
Q 36

This map of Europe shows the spread of:

A. the "Barbarian" invasions
B. the Crusades
C. the plague
D. the establishment of medieval universities
Q 37

From the photo, what should you infer about economic conditions in the boy’s country?

A. good social welfare system
B. high GDP
C. high inflation rate
D. low crime rates
Based on this diagram of a river, in which of these sections are erosion and sedimentation processes dominant?

A. erosion in 2 and 4; sedimentation in 1 and 3
B. erosion in 1 and 4; sedimentation in 5
C. erosion in 3; sedimentation in 7
D. erosion in 7; sedimentation in 8
The table shows occupational data for the population of a town in a developing country. Which of these occupational categories employs the most workers in that town?

A. administration
B. commerce
C. communication
D. manufacturing

<table>
